

# ENHANCING EDUCATION FOR THE NEXT GENERATION

## ANNUAL PARTNER PROGRAM LA PORTE EDUCATION FOUNDATION

# History

In 1993, several community leaders saw a need for alternative revenue sources in La Porte ISD after the implementation of Chapter 41 of the Texas Education Code, commonly known as the “Robin Hood” plan. This law was established to provide court-mandated equitable school financing for all school districts in the state.

The La Porte Education Foundation (LPEF) was formed to help provide extras for classrooms. LPEF’s mission is to enhance education by funding innovative, creative instructional projects for students and teachers in the La Porte Independent School District.

The goals of the La Porte Education Foundation are to ...

- Serve as a catalyst for involving the community in education.
- Create an endowment to fund programs and activities.
- Expand opportunities for all La Porte ISD students and teachers.

To date, LPEF has awarded more than \$2.6 million for grants and special projects to 2,000 teachers and administrators in La Porte ISD.

# Innovative Teaching Grants

## *2, 4, 6, 8, Multiplication is Great!*

**Ms. Kelli Llewellyn**

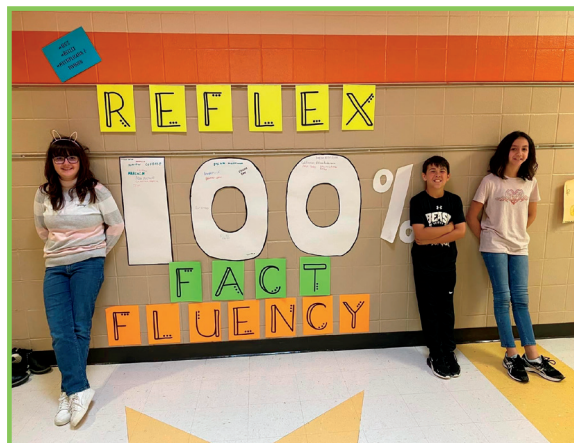

**Jennie Reid Elementary School**

Students are gaming in math classes at Jennie Reid Elementary and becoming fluent in math facts at the same time. The Explore Learning Reflex Program helps students master basic math facts in addition, subtraction, multiplication, and division by playing cloud-based games on laptops.

Reflex has been used in thousands of classrooms to successfully support students who are testing at grade-level, at-risk students, and students with special needs. Reports have also shown that Reflex helps close learning gaps and improve student performance in the classroom and on state assessments.

A key component of Reflex's effectiveness stems from its ability to take research-validated techniques for fluency development and customize both the content and method of these techniques for each student. The system continuously monitors students' response patterns for each fact under study and uses this data to differentiate instruction and adapt practice throughout a Reflex session. Students must answer math questions that reinforce things they have learned in class to advance to play the next game in the program.

In just one school year, progress reports and exams show that students have substantially increased their math facts.

## 2021 DOLLAR PATROL

**\$125,154**  
awarded

**115 classroom grants**  
selected

**103 teachers**  
received grants

**13 campuses**  
visited

**7,000 students**  
impacted

# Our Programs and Events ...

## ■ Breakfast with the Stars (August)

The event brings together company executives, community members, and school administrators to celebrate the start of a new school year and to honor the stars of the district — our teachers. Attendance averages about 350 people each year.

## ■ Dollar Patrol (November)

It's also called Super Thursday. Donors, community members, board members, and administrators board buses and travel to all campuses in the district to award checks to teachers for innovative classroom grants.

## ■ Hoops Classic (February)

The LP Hoop Dogs (a team of teachers, administrators, and local luminaries) take on the Harlem Wizards in a game of basketball.

## ■ Golf Tournament (April)

Our business and community partners come together for the tournament to enjoy a day on the greens and raise money for classroom grants for the next school year.
